

Freshwater Advanced Aquatic Sensor Workshop: *Sensors, Platforms and Data Management*

September 11-13, 2011

at the **University of Michigan Biological Station**
Douglas Lake, Michigan

INFORMATION AND REGISTRATION:

<http://umbs.lsa.umich.edu/research/aquatic-sensor-workshop>

Aquatic sensor technology is developing rapidly, yet mechanisms and opportunities for limnologists and field biologists to receive training in these new technologies are limited.

This workshop will address critical aspects of the sensor lifecycle, including:

- * **Sensor selection, deployment and maintainance**
- * **Data logger configuration**
- * **Data telemetry and management**
- * **Project team assembly**
- * **Demonstrations of the latest aquatic sensor technology**

LIMITED FUNDS ARE AVAILABLE FOR TRAVEL AND ROOM/BOARD COSTS
OF PARTICIPANTS WHO REGISTER BEFORE THE JUNE 15TH, 2011 DEADLINE.
